President's Message

Greetings from home!

What a crazy time in our world. I hope this finds you well and safe while staying home. I miss you all and miss all our activities. It has been fun seeing so many people out walking in Turtle Rock. I know I have passed many of you.

At this time, we continue to be on hold for all our activities. We will email you when we can start up again. In the meantime, I hope you are filling your days with happy things. If we can do anything for you at this time, please reach out to the turtlerockwomensclub@gmail.com. Stay safe and healthy.

Cean Cerny

Happy Birthday
Ladies!!!

What have you been doing during the quarantine?

We'd love to know if you've started a new hobby, read any good books, volunteered, or maybe witnessed some of the incredible wildlife in our community? Please send a brief writeup along with photos and we'll share in future newsletters. You never know, your suggestion could inspire your neighbors to try something new!

Here's what the Board has been up to:

Cean Cerny

I have learned zoom and have a family game night each week. We've played trivia, pictionary, and had a talent show so far.

Jean Contillo

I've been sorting family photos. Attached are some gems from Disney over the years.

Karen Howe

During quarantine, I've been sewing face masks for our family and friends. Now I am sewing masks for our daughter, who is the assistant administrator of a nursing home in Utica, NY and for the staff to help protect them in their work with their residents.

Kay Consigney

I have been busy organizing my home!

Angela Pierre

In the “Old Normal” Claude would go to his gym and I would go to mine. With the exception of tennis we never worked out together. In the “New Normal” we spend lots of time getting in shape together. We go biking, running or do lots of walking all around Palmer Ranch, always changing direction to try a new route. On Tuesday we enjoyed walking on the beach. It was a beautiful day, we certainly live in paradise! We really enjoy the time we spend on our long walks and the silly, serious and deep conversations we share. This “New Normal” taught us a lot of things and one of them is spending more time with the people we love!

Susan Neisler

I started filming yoga classes for our Turtle Rock community yoga class and my faith-based yoga classes at Church of the Palms. If you're interested in either of these free classes you can find me on YouTube.

Courtney Knowles and the Turtle Rock Families Club asked that we remind everyone that The Bear Hunt continues!!!

It's a Turtle Rock Bear Hunt!

Let's help our kids, friends, and neighbors have fun, get some exercise, and maintain social distance! Let's go on a bear hunt!

Let's have bears in lots of windows, or hanging from trees, on stakes in the garden, or wherever you like.

The more bears the better!

Then Turtle Rockers can go scouting for bears all over the development.

Want a map to record where you saw bears? Copy the map page from your Turtle Rock Directory and mark all your bear sightings!

If you have a bear or other toy animal, or you can make some out of cardboard or paper, place them in the front window of your house, or even better, outside.

Which street will have the most bears? We'll let you know in a Turtle Rock newsletter.
